KB Home Grand Opens New Phase of Its CrossCreek Community in San Antonio

Beautiful new home designs and larger wooded homesites now available in a prime neighborhood with dramatic bridge and amenity center planned

SAN ANTONIO--(BUSINESS WIRE)-- KB Home (NYSE: KBH), one of the nation's largest and most recognized homebuilders, is pleased to announce the grand opening of the newest phase of single-family one- and two-story homes at CrossCreek, a desirable northwest San Antonio community in one of the most active residential real estate markets in the city.

Homebuyers at CrossCreek will have the opportunity to enjoy a new home that is built to their preferences in a community that is conveniently close to major employers, including the University of Texas at San Antonio, USAA, Valero and Lackland AFB, and the area's major highways.

Centrally located near Loop 1604, Highway 151 and IH-10, CrossCreek is the perfect place for those who want to live close to popular entertainment destinations like Seaworld and Fiesta Texas. Minutes away from destination shopping choices at La Canterra and The Rim, there are also family-friendly restaurants and shopping at nearby Alamo Ranch Marketplace. In addition, CrossCreek is served by the highly-desirable Northside ISD public schools.

KB Home's CrossCreek is an established community of beautiful newly-built homes. This grand opening marks the launch of a new section of the popular neighborhood, which will be enhanced with additional planned premium amenities including a community park and pool, a children's playground, picnic pavilion and walking trail. Along with these attractive features, the community is graced with the particularly lovely Culebra Creek meandering through it, highlighted by a picturesque bridge that leads residents into this new section of the community.

"CrossCreek is located in a dynamic and highly desirable area and we are delighted to expand this community to offer more families the opportunity to live in a home built to their specifications," said Brett Dietz, president of KB Home's San Antonio division. "We are excited about this community and look forward to inviting home shoppers in to see all the benefits of owning a KB home at this great location."

In addition to the 12 flexible one- and two-story floor plans currently offered in CrossCreek, 16 new home designs, ranging in size from 1,792 and 3,699 square feet will be added to the collection.

All KB homes sold in San Antonio are ENERGY STAR® certified, meaning they are designed to be more water- and energy-efficient than most typical new and resale homes available in the area. The water- and energy-saving features built into every new KB home can also help homeowners save money on their monthly utility bills.

About KB Home

KB Home is one of the largest and most recognized homebuilding companies in the United States. Since its founding in 1957, the company has built more than half a million quality homes. KB Home's unique homebuilding approach lets each buyer customize their new home from lot location to floor plan and design features. As a leader in utilizing state-of-the-art sustainable building practices, all KB homes are highly energy efficient and meet strict ENERGY STAR® guidelines. This helps to lower monthly utility costs for homeowners, which the company demonstrates with its proprietary KB Home Energy Performance Guide® (EPG®). KB Home has been named an ENERGY STAR Partner of the Year Sustained Excellence Award winner for four straight years and a WaterSense® Partner of the Year for four consecutive years. A FORTUNE 1,000 company, Los Angeles-based KB Home was the first homebuilder listed on the New York Stock Exchange, and trades under the ticker symbol "KBH."
