To accommodate the homebuying process, the Cactus Landings sales office and model

homes are open for private in-person tours by appointment, and walk-in visits are welcome in accordance with public health orders and safety guidelines. Homebuyers also have the flexibility to arrange a live video tour with a sales counselor. Additionally, the KB Home website makes it easy for home shoppers to view photo galleries, experience virtual model home tours, explore interactive floor plans and discover the Design Studio.

"Our Cactus Landings community is situated in a prime location near the Mountain's Edge master-planned neighborhood, adjacent to Mountain's Edge Regional Park and a short drive to Red Rock Canyon," said Brian Kunec, Regional General Manager of KB Home's Las Vegas and Seattle divisions. "The community offers homebuyers a

selection of beautiful new homes in a tranquil Southwest Las Vegas setting. As with other KB Home communities, Cactus Landing offers home shoppers the opportunity to purchase a new, personalized KB home at a price that fits their budget.”

KB Home stands out from other homebuilders as the company gives homebuyers exceptional choice and control. KB Home starts by offering a wide variety of homes at an affordable price. From there, the builder gives buyers the ability to personalize their homes from homesites and floor plans to design features. Every home is designed to be ENERGY STAR® certified thanks to the quality construction techniques and materials utilized that ultimately deliver significant savings on utility bills compared to used homes and support healthier indoor environments. The KB Home team works hand in hand with homeowners every step of the way so they have a real partner in the process.

The homes at Cactus Landing showcase desirable design characteristics like gourmet kitchens overlooking expansive great rooms, master suites with walk-in closets, and spacious home offices. The community’s one- and two-story floor plans feature up to five bedrooms and four baths, and range in size from approximately 1,100 to 2,400 square feet. Additionally, the new homes are designed to deliver an enhanced indoor air environment and include high performance ventilation systems, low- or zero-VOC products in insulation, paint, carpeting and cabinetry, and other features guided by the Environmental Protection Agency’s (EPA) Indoor airPLUS standards. Pricing begins from the \$290,000s.

About KB Home

KB Home (NYSE: KBH) is one of the largest and most recognized homebuilders in the United States and has been building quality homes for over 60 years. Today, KB Home operates in 42 markets across eight states, serving a wide array of buyer groups. What sets us apart is how we give our customers the ability to personalize their homes from homesites and floor plans to cabinets and countertops, at a price that fits their budget. We are the first builder to make every home we build ENERGY STAR® certified. In fact, we go beyond the EPA requirements by ensuring every ENERGY STAR certified KB home has been tested and verified by a third-party inspector to meet the EPA’s strict certification standards, which help to lower the cost of ownership and to make our new homes healthier and more comfortable than new ones without certification. We also work with our customers every step of the way, building strong personal relationships so they have a real partner in the homebuying process, and the experience is as simple and easy as possible.
