KB Home stands out from other homebuilders as the company gives homebuyers exceptional choice and control. KB Home starts by offering a wide variety of homes at an affordable price. From there, the builder gives buyers the ability to personalize their homes from homesites and floor plans to design features. The KB Home team works hand in hand with homeowners every step of the way so they have a real partner in the process.

Every KB home is designed to be ENERGY STAR® certified thanks to the quality construction techniques and materials utilized that ultimately deliver significant savings on utility bills compared to used homes. Additionally, all new KB homes are designed to deliver an enhanced indoor environment and include high performance ventilation systems, low- or zero-VOC products and other features guided by the Environmental Protection Agency’s (EPA) Indoor airPLUS standards.

The Fieldstone sales office and model homes are open for private in-person tours by appointment only. Homebuyers also have the flexibility to arrange a live video tour with a sales counselor. Pricing begins from the low \$400,000s.
