LOS ANGELES--(BUSINESS WIRE)-- KB Home (NYSE: KBH), one of the largest and most recognized homebuilders in the U.S., has been named to Newsweek®'s America's Most Responsible Companies 2024 list, the only national builder to receive this distinction four years in a row. This recognition is presented by Newsweek and Statista, a leading provider of market and consumer data, and can be viewed on [Newsweek's website](#).

"We're honored to once again be named by Newsweek as one of America's most responsible companies, the only homebuilder to make this distinguished list four years in a row," said **Jeffrey Mezger**, KB Home's Chairman, President and Chief Executive Officer. "KB Home has maintained a steady course toward greater sustainability for nearly two decades, and the work we do helps make the dream of homeownership and all its benefits an achievable goal for more Americans."

America's Most Responsible Companies were selected from an initial pool of over 2,000 public companies and based on publicly available key performance indicators from annual reports, corporate social responsibility (CSR) reports, sustainability reports and corporate citizenship reports as well as an independent survey of more than 17,000 U.S. residents. The final list recognizes the top 600 most responsible companies in the U.S., spanning 14 industries.

KB Home is one of the largest and most recognized homebuilders in the United States, operating in 47 markets from coast to coast, and building over 670,000 quality homes in our more than 65-year history. What sets KB Home apart is our focus on building strong, personal relationships with every customer — from those buying their first home to experienced buyers — so they have a real partner in the homebuying process. No two KB homes are the same. That's because every home is uniquely built for each customer, at a price that fits their budget. As the leader in energy-efficient homebuilding, KB Home was the first national builder to make a broad commitment to building ENERGY STAR® certified homes, a standard that fewer than 10% of new homes nationwide meet, and KB Home has built more ENERGY STAR certified homes than any other builder. An energy-efficient KB home helps lower the cost of ownership and is designed to deliver greater comfort and well-being than new homes without certification.
