LOS ANGELES--(BUSINESS WIRE)-- KB Home (NYSE: KBH), one of the largest and most trusted homebuilders in the U.S., has been named to USA Today's America's Climate Leaders list for a second consecutive year.

"We are honored to be named as one of USA Today's 2024 America's Climate Leaders, with the added distinction of being ranked in the top five percent of all companies listed as well as the highest-ranked homebuilder. KB has a proud history of being a leader in sustainability. For over two decades, we have continued to demonstrate that a sustainable home can significantly reduce the total cost of homeownership while exceeding customers' dreams," said **Jeffrey Mezger**, KB Home's Chairman and Chief Executive Officer. "This recognition underscores our belief that a KB home is a better home, one that is more efficient and affordable to operate, and delivers on the enduring promise of the American dream."

Presented by USA Today and Statista Inc., the world-leading statistics portal and industry ranking provider, the award can be viewed on the USA Today [website](#). America's Climate Leaders 2024 were selected based on a two-step process:

- Application and Research Phase: Companies could be included on the list by applying online or by having the necessary data publicly available.
- Data Analysis and Scoring Phase: For all companies meeting the inclusion criteria, the year-over-year reduction in emissions intensity (compound annual reduction rate) was calculated.
