Every KB home is uniquely built for each customer, so no two KB homes are the same. "We are pleased to offer homebuyers in the Seattle area spacious new two- and three-story homes in the vibrant and highly desirable city of Mill Creek, Washington," said Ryan Kemp, President of KB Home's Seattle division. Innovative design plays an essential role in every home KB builds. The company's floor plans inspire contemporary living, with a focus on roomy, light-filled spaces that have easy indoor/outdoor flow. KB homes are engineered to be highly energy and water efficient and include features that support healthier indoor environments. They are also designed to be ENERGY STAR® certified — a standard that fewer than 12% of new homes nationwide meet — offering greater comfort, well-being and utility cost savings than new homes without certification.
